

Nation-wide Campaign by JRU7 is now in progress

No.12 May 17, 2009 Action in the rain, Rally in Aomori

The Rally of Aomori region was held at Hotel Alaska in Aomori city. Aomori is located in the farthest north of main land of Japan.

Brother Uehara and Brother Saito went to the rally. They talked about the development of their case and expressed their anger at JR East Company and judges of the Tokyo District Court which handed down the first decision. They also touched on their campaign in the car and fighting of JRU7.

It was rainy, but we did a flyer-distributing action to call for the citizens to learn what the case was and to join the rally. During our action citizens talked to us as "I want to attend the rally," or "I'm surprised to know the truth (of JRU7)." The rally was succeeded. We realized that the circle of supporters for JRU7 has grown bigger.

The painter Ikeda gave them a picture.
