

Nation-wide Campaign by JRU7 is now in progress

No.29 May 29, 2009 Welcome home, JRU7! They are back to Omiya.

Today was the last day of our nationwide campaign. JRU7 came back to their home, Omiya. We had a rally in Kanatsuka Park near Omiya Station. Before starting the rally, we distributed flyers to call for support at three stations. It was raining hard, but citizens received our flyers.

The rally started with an angry Sprechchor. The guests including Brother Takei, President of JRU made addresses. They said, "Right and justice are on our side. We need to fight on against unreasonable oppression of labor movement."

Members of JRU7 expressed respectively their gratitude for support, the fruit of the campaign and their resolution to win the case.

After the rally a total of 820 people who joined the rally demonstrated through the street in front of Omiya Station and the Omiya regional office of the JR East. Our chanting echoed in the town where many residents or walkers stopped to listen to us.

Through this nationwide caravan, we have spread our movement outside the court. It's our gratitude that so many people joined this

campaign across Japan.

At Kawagoe Station one woman came to us and said, “My husband is working in the railway company. But I’ve never heard of such a case. I’m very sorry. I’d like you never to give up.”
