

Nation-wide Campaign by JRU7 is now in progress

No.5 May 12, 2009 Condemn “kokusaku” investigation - Shimosuwa

Hisako Kondo

Brother Saito, one of JRU7, made an impressive speech in front of 60 people who came to Hotel Sannoukaku in Shimosuwa, Nagano prefecture. He said, “I couldn’t understand what happened on November 1, 2002, as I had already quit my job. However, I did nothing criminal. It is clear our case is framed up in line with so-called kokusaku, national policy (to crush militant trade unions such as JRU).”

On behalf of the support association, Hisako Kondo, its leader, called for us to keep the government from going crazy, saying, “I guess that Washington has possibly been involved in arrest of the secretary of Ichiro Ozawa, the then president of Democratic Party of Japan (the biggest opposition in Japan),” and “It was a misjudge of the police to arrest a popular singer named Kusanagi and raid his house.”(Mr. Kusanagi was arrested for the crime of becoming naked in drink.)
